Employee Assistance Program (EAP)

Definition/ Explanation

The purpose of the DGS' EAP is to provide professional and confidential guidance to the management team and employees for the resolution of personal or organizational issues that may adversely affect work performance. Quickly restoring a poorly performing employee to a sustained productive worker benefits everyone. A formal management referral to the EAP when correcting performance problems increases the likelihood of a win/win outcome.

EAP is a voluntary, confidential and pre-paid program that can help employees and their family members balance the demands of daily living and find solutions for ongoing or serious concerns. It is a collaborative effort by labor, management and a service provider to resolve workplace performance problems caused by personal issues, such as:

Clinical Counseling:

- Alcohol Abuse
- Drug Abuse
- Marital and Family Issues
- Emotional, Personal and Stress Concerns

Legal Concerns: Advice on family law, consumer issues, landlord/tenant disputes, personal injury, contracts, and criminal matters. (Immigration, tax, employment, or patent law are not covered.)

Financial Issues: Help for budgeting, credit issues, and financial planning. (Tax or investment advice, loans or bill payments are not included.)

Child and Elder Care Assistance: Help in identifying care-giving needs and options, and in accessing available community and financial resources.

Federal Tax Assistance: Help for IRS audits and unfilled or past-due tax returns. (This is not a tax representation or preparation service.)

Pre-Retirement Planning: Guidance for planning a quality retirement. (This does not include investment, tax, or legal advice.)
